VOL. XXIII.

CLAY CITY, KY., THURSDAY, MAY 9, 1918.

NO. 19

Y. M. C. A. War Work Council.

In their fight against the Kaiser, American soldier boys under shell fire in France are being given all possible comfort and assistance, according to an announcement just received here from the National War Work Council of the Y. M. C. A. At the present time there are more than 250 American Y. M. C. A. secretaries under shell fire. These men have been with Pershing's troops from the time they landed on foreign soil.

A total of 5,000,000 is being expended monthly by the Army Y. M. C. A. in its work for the American troops at home and abroad. There are 2,500 Y. M. C. A. workers in France and England and 3,000 in American camps.

Because of the increasing need for men in this service and the force necessary to operate the entire canteen system in France, efforts are being made to enroll at least 1,000 more business and professional men of high standing who are willing to go to France for every kind of Y. M. C. A. service before July 1.

It is estimated that 8,000,000 feet of film are being exhibited weekly to the soldiers at home and abroad. A recent shipment of athletic equipment for the troops in France consisted of 79,680 baseballs, 19,000 bats, 10,000 gloves and mitts, boxing gloves, volley balls, and various other kinds of apparatus for promoting the play spirit among the troops in their leisure hours.

The Y. M. C. A. has established a chain of huts and dugouts along the front lines occupied by American troops "over there" and is meeting the needs of the Sammies as they take their places alongside their Allies. The Y. M. C. A. huts on the Russian front have been demolished by German guns and the 150 secretaries there have retired before the advance of the Huns and are now established in Siberia awaiting an opportunity to return to Russia.

Sugar Situation Better.

Under certain provisions and restrictions, we are informed, merchants can sell customers 50 pounds of sugar beginning at once and all during preserving time. This is good news to the farm housewives, many of whom have been accustomed to having sugar laid in by the hundred pounds or the barrel. While 50 pounds is not what is needed, it beats 10 pounds at a time bad, and we all are glad to certify our allotment for those others who also need it.

Rain is Now Needed.

The prevailing dry period has been much appreciated by the farmers, and many of them are through planting corn. Some who are not yet done breaking, say the ground is getting very hard to plow. It breaks up cloddy and is difficult to put in proper condition to plant.

Parents Day.

Special Parents' Day Service next Sabbath morning, May 12th, at the Presbyterian Church. Parents are especially invited to come and bring their children.

Road Contracts Awarded.

At Stanton Saturday bids to build three miles of road in the county were accepted. N. B. McDonald and associates will build the east mile of the survey above Stanton, and J. E. Burgher will build the first two miles west of Clay City. The price is the same for all construction work as the contract with Harris & Myers which was recinded few weeks ago notwithstanding the advance in price of labor, material and machinery. Work is to begin on the lower job within ten days from signing contract and be completed by August 1st. Work on the eastern section is to begin within sixty days and be completed by January 1st. It was the desire of the court to let out all the 11 miles approved for construction and offered it in one mile sections so that local people could handle it, but only two of them made bids. The people of the county cannot complain of the price, for bids were open to all and cut up into sections that barred no one from taking a contract if they wanted to.

Physical Culture Teacher.

Miss Margaret Garrett, youngest daughter of Mr. and Mrs. H. Green Garrett, has volunteered for service in France as physical culture teacher for the Red Cross nurses, who have to be kept in the best possible condition for arduous labors. With Miss Garrett will go a number of fine girls, all of whom are graduates of the noted Eastern high-class colleges, and from prominent families. The organization is a new one and is being mobilized and financed by some wealthy patriots. Col. Garrett had no sons to go on the firing line but gave his approval to his daughter's desire to "do her bit." Miss 'Mat' is a bright, cultured, attractive girl.—Winchester Courier.

Red River Cannot Be Seined.

After reading the new fish law, we learn that there is a mistaken version of the law as it pertains to catching fish with seine, nets etc. This law applies only to navigable streams in the state, consequently it is not lawful to so fish in Red river. So get your pole and line and hike to the river and dispel your ambition to return to the seine and nets. The Times thinks there would be more fish if it did, as some people will dynamite the river when not allowed to fish with nets.

To Drill on Estes Farm.

The Wells Oil & Gas Company, having entered this territory, will sink their first well on the farm of the late A. C. Estes on Hardwick's Creek, and will get busy at once, we are informed. They will move a rig here from Campbell county where they have been drilling in exclusive dry territory by recent tests. There is one oil well on the Estes farm and this company considers the outlook good to bring in another.

Busy on The Job.

F. G. Phillips, Powell's new road engineer, has arrived and is busy on the job with the first two miles out from the city on the Winchester road. During the construction of this road his headquarters will be in this city.

Provision for Farm Help.

If there are any farmers in the county needing help they can get boys from 16 to 21 years from the club organization designed to supply such need. On the other hand if there are any boys in the county wanting such employment they should let Postmaster O'Rear know of it. The Boys Working Reserve is designed to systematically supply farm help where it is needed. If you get a boy that does not suit, you can return him. And by the way, boys from 16 to 21 often make the very best hands on the farm. At any rate the project is worth trying.

Improvements at The Depot.

A crew of carpenters and concrete men are here and at work remodeling and repairing the depot. It will be greatly enlarged and concrete foundation put under it, with possibly concrete floors and walks about the building. These repairs have been needed for some time. The new depot planned to be built before the Government took over the railroads, will not be built because the Government has set hard down on any improvements on any road beyond vital necessity in their operation.

More Biscuits in Sight.

The outlook is good for a bumper yield of wheat this year, official estimates now reaching one billion bushels in the United States which is a record yield. Such a yield, if realized, will give biscuits for all once more, despite the war. The effect on the supply of flour is already noticeable, the merchants being able now to get a great deal more flour than a few weeks ago. But still, to do this, they must buy an equal amount of meal.

Ice Under Administration Control.

The manufacture and distribution of ice comes under the United States Food Administration and the Control Act of August 10th, 1917.

Only such increases as are justified by increased costs will be permitted and in addition only such adjustment as between the different classes of consumers as the situation may require.

Division Engineer Here.

Joe E. Boggs, State Division Engineer, of Richmond, was here Tuesday in company with County Engineer Phillips looking over the new road survey. Mr. Boggs will be here each succeeding two weeks looking after the road work in the county which is expected to start within ten days.

The Drives.

We are scarcely out of one drive until we are into another, but then the people are better able to stand it if they command or produce anything to sell. Such prices were never heard of before. The next drive is the Red Cross, which begins May 20.

H. G. Crabtree returned yesterday from a business trip to Will-hurst and Jackson. He reports a fine rain and it very propitious in the counties of Wolfe and Breathitt.

STANTON.

(By P. O. Derthick.)

A dry well was drilled in on Vir-lin Snowden's place.

Mrs. Harry Melroy and baby, of Clay City, visited in Stanton Tuesday.

Mrs. Geo. Derickson left for Cincinnati Tuesday, where she will visit.

Mrs. W. R. Catron, of Kiddville, visited in Stanton Tuesday of this week.

Judge J. M. Benton was here Saturday, from Winchester, on legal business.

Virgil Atkinson, wife and daughter, Patsy, visited with home folks over Sunday.

Mrs. Charles Boller visited her husband, in the oil fields, near Slade the past week.

James Chaney and his beautiful wife are visiting her people in Ashland this week.

Morgan Lyle has a new roof on his house which adds much to the looks of the place.

Mrs. Bettie Hardwick is visiting in Winchester with her son, J. H. Hardwick, and family.

Mrs. Allie Dixon, of Asheville, N. C., is visiting with the Bakers and Daniels this week.

H. H. Harrison made a business trip to Lexington in the interest of his work this past week.

Fulton Hensley, of Brush Creek, was taken to the State Hospital at Lexington by E. Y. Dawson.

Dr. Johnson was called to South Fork Saturday to see Uncle Jonathan Boyd, who is quite sick.

Mrs. Laura Hardwick has returned from a visit to her daughter, Mrs. Hattie Cowgill, of Lexington.

Rev. McClelland Stamper, of Fillmore, was here this past week visiting his uncle, Larkin Stamper.

Miss Maud Boone has been very dangerously sick for several days. She is slightly better at this writing.

Mrs. Ruth Phillips is the mother of a fine baby girl, so word comes from Mrs. M. A. Phillips, of Louisville.

H. H. Harrison left for Campton Tuesday where he will organize the boys of that town into clubs of various kinds.

Have you noticed that fine horse Jim Ewens is riding over our town. That is one of the prettiest animals we have seen in many a day. Its a beauty.

Colson Blackburn, of Louisville, is visiting his many friends in Stanton this week. His father, Robert Blackburn, was also here this week on business.

Mrs. Chaney, Mrs. Lennie Crow and son, Cecil, made a trip to Natural Bridge last Saturday to look after some flowers and other things they had there.

Mr. Summers has moved his drilling machine to D. R. Clark's place and will drill for oil in the next few days. Here's to success for a good well for Daddy Clark.

Henry Tipton was struck in the

Local Brevities.

John Campbell, of Camp Stanley, Texas, is home on a furlough.

Miss Maud Bowen, of Slade, visited relatives in the city over Sunday.

Mr. and Mrs. W. P. Kineaid, of Stanford, visited relatives in the city this week.

Born, Wednesday, May 9th a son to Mr. and Mrs. J. E. Niblack of this city.—Robert.

A. T. Whitt has moved into his new home on the hill, and is settling down to farming right.

W. M. Conlee has moved to the W. E. Moore property. Mr. Conlee holds a responsible position in the oil fields.

The sign to fish is just now right. John P. Gaylord came in this morning with minnow bucket and fishing tackle.

Geo. W. Wells, of Winchester, was up to see his sister, Mrs. P. D. Todd, two miles south of the city the last of the week.

O. J. Giddell, of Lexington, was here Tuesday in the interest of J. D. Adams & Co., of Indianapolis, Ind., builders of road machinery.

Clarence Finney, an oil man in control of important drilling operations in the Furnace field, has rented the A. T. Whitt property in the eastern portion of town.

eye with a piece of steel a few days ago and was compelled to go to Winchester where it was removed. His eye has suffered no loss of sight.

Stanton school board met May 1, 1918. Established tax rate and hired teachers for the coming year. Maud S. Bowen was chosen principal, and Julia Robbins assistant of Stanton High School.

John Lumpkin suffered a severe loss when he was thrown under the wheels of a wagon, near Torrent, and his right ear was almost completely torn off. It is giving him much pain at this writing.

The writer is in receipt of a fine hand book, telling of the splendid work done by the Presbyterian Church of the Covenant of Cincinnati, Ohio. In it we notice that Roscoe Welch and his wife take quite a prominent part in its activities.

Mrs. Richard Crowe and baby, and Mrs. James Chaney visited with Mr. and Mrs. Tom Chaney, on Hatton Creek, one day this past week and partook of a fine dinner that Mrs. Chaney knows how to prepare.

Walter Thacker, of Bowen, was here on business Tuesday. Walter says that the farmers up that way are subscribing liberally toward the building of roads in that end of the county. They also expect much help from the oil people, who are usually glad to help secure good roads. It means much to them in the moving of machinery.

Mrs. Neal Ranson visited in Stanton Saturday and attended the missionary meeting that met at the home of Mrs. J. K. Giffen. We re-

(Continued on Last Page)

THE TIMES.

J. E. Burgher, : : Publisher.

Entered as second-class mail matter at the Post Office at Clay City, Ky., under the Act of Congress of March 3, 1879.

A HOME-MADE PAPER

THURSDAY, MAY 9, 1918.

SUBSCRIPTION RATE,
ONE DOLLAR PER YEAR.

Every body has seen this: Young men single fellows, and others married since last May, called away from their fields of food production to the colors. Now we are not kicking about this. That is up to those in power with out our criticism. But, at the same time there are thousands of men of the same age ensconced by married life, thus shielded under the roof of saloons and breweries of this land, ten fold worse than wasting their lives; wasting food that was produced last year, and wasting the lives of thousands of young men this year, keeping them loitering around these dens when they would be at work were it not for these places. We believe it is safe to say that directly and indirectly, one-tenth our energy is being sacrificed and defiled that this business may operate.

Congress has reminded us that we must have an abundance of food and man power, but it has failed to stop the greatest of all waste. President Wilson did his part, as did many of the members of Congress, but still the German ally, King Boose, puts in his fatal operations wide open in this country.

A splendid action of the Government in the control of the railroads is the one dispensing the city ticket offices and dismissing the traveling passenger agents that have been running around over the country soliciting travel. The Government rightly concludes that as all passengers must go to some depot to board the train, they can buy their tickets there. And instead of getting the travel increased it is desired to have it substantially diminished.

If the foreseen materializes, and the unforeseen fails to happen, it looks now like we will get some roads in Powell county, and that home people will build them, and, further, that they will be built with tax money instead of all bond money.

The enrollment of more than 102,000 boys between 16 and 21 years of age for farm work this season in the boys' working reserve of the United States Employment Service, has been made by six States.

Powell, following in the work of Clay City, went over the top.

A Jail Convert.

In the Georgetown jail last week, Robert Turner, an inmate, died to kill the jailor. Instead of remaining with blows, the jailor preached a sermon to the prisoner, taking as his text "The wages of sin is death." Turner was struck under conviction and required baptism which was administered to him and then taken into church.

Repentant, Turner declared that in his life of more than half a century, he had been a gambler, a drunkard, a robber and a burglar. He has served five terms in the State penitentiary. He then declared he was ready to change his manner of life, and desired to become a church member.

Before his bright conversion, Turner had twice attempted to end his life in the jail by cutting his throat and a short time ago, finding no weapon with which to attempt suicide, dashed his head into the prison wall until blood gushed from his ears. After repeated efforts to end his earthly life had failed, a new hope came to him in the vision of a life of the spirit.

This method of dealing with the enemies is in accord with the teachings of Jesus Christ, who then practiced always pays with parties as in this case, if done in the right spirit.

Back to The Angus Cattle.

Kentucky has started out to win back her former supremacy in beef cattle breeding with Aberdeen-Angus, and the first annual sale of the Kentucky Aberdeen-Angus Breeders' Association will be held at the Bourbon Stock Yards, Louisville, on May 9, when 19 head will be sold at auction.

Does YOUR Back Ache?

NEARLY everybody suffers from kidney disease at some time or other. One may think he is perfectly well and even force himself to say he is "all right," but his tired movements and languid expression tell more plainly than words that he is in an unhealthy condition.

Backache is a symptom of weak disordered kidneys. Rheumatic pains, stiff joints, sore muscles are others. These symptoms indicate that the kidneys and bladder need help to do the work of filtering and casting out from the system poisons and waste products that cause trouble.

Foley Kidney Pills

Give quick and permanent relief in kidney or bladder troubles that have not reached a chronic or advanced stage. They stop bladder irregularities, strengthen the kidneys and tone up the liver.

Paul Darkow, Stewart, Minn., writes: "Two years ago I had a pain in my back so severe that I could not walk. I thought it was kidney trouble. I bought a 50-cent bottle of Foley Kidney Pills and after taking about half the bottle was completely cured. I have had no recurrence of the trouble."

If you have any cause to suspect that your kidneys need help, you will make no mistake in taking Foley Kidney Pills. In 50c and \$1.00 bottles.

Sold Everywhere

GENET

Corn planting is the order of the day.

Preaching at Chop Chestnut last Sunday by Rev. Shoemaker.

Mrs. Sarah L. Townsend, widow of the late Marshall Townsend, has moved to her father's place.

Log cutting and saw milling is in full blast on Orchard Branch under supervision of Mr. Sullivan, of Lexington, Ky.

B. F. Hatton has been awarded the sub-contract for carrying the mail from Patsey via. of Pilot, Xena, Genet to Bowen.

Wood Oil Company will move a drilling machine to the farm of John Mullens at once. Also Scott, Duncan & Williams will move one to the farm of Green Adams. These two farms are directly N. E. of production at C. A. Means lease, and about two miles air line.

VAUGHN'S MILL.

Miss Mildred Welch is confined, at this writing, with red measles.

Sam Burton, of Richmond, spent a few days recently with his cousin, John Burton.

Ernest Gravett has been called to the colors, and left Thursday to report at Ft. Thomas.

Rev. W. K. Harding filled his regular appointment at the Christian Church the past Sunday.

Dick Lee has moved from the Green Snowden place to Henry Tipton's, where he will help on the farm.

Robt. Abney went to Paris last Friday, returned Saturday, where he met some oil capitalists, pending a deal on his farm for the purpose of drilling.

Mr. and Mrs. S. A. Easter, of Revenna, were here the past week with relatives. Mr. Easter has given up his position as car inspector at Revenna and gone to work on the Russell oil lease at Torrent.

Bible Study in The Camps.

It may interest some of our readers to know that in our military camps there is a study of the Bible going on today that is little less than amazing. Think of figures like the following: Camp Zachary Taylor, 183 Bible classes with a membership of 3825; Camp Jackson, 90 classes, membership, 4128; Camp Grant, 132 classes, membership, 4277; Camp Custer, 125 classes, membership 3082. These classes study the Bible nights after the day's work. The nation whose civilians and olders nourish their souls at the table where the world's great prophets and apostles have nourished theirs can know neither discouragement nor defeat.—Our Dumb Animals.

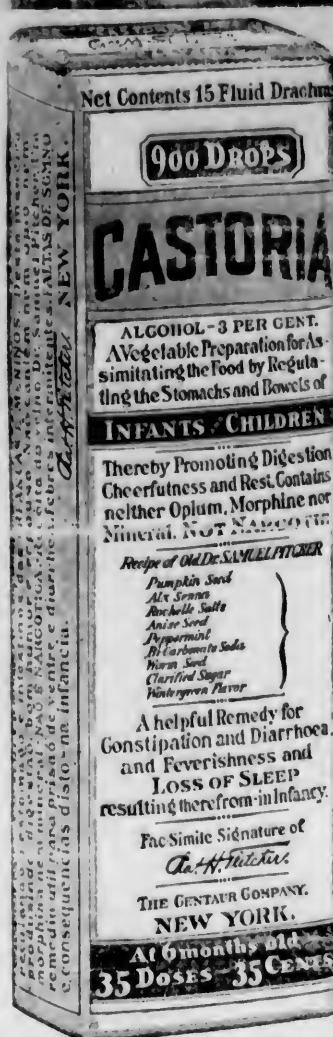

Read our classified ads. It pays.

Can You Answer?

Owing to the war we are asked to save meats, fats and wheat in the homes, which we are only too glad to do. But here in Indiana we had three laws made last winter—first, for a new constitution; second, woman suffrage; and third, a bill closing all saloons the second of April. All have been declared null and void by the courts, having been fought by the liquor interests.

If the Fuel Administration has the power to close factories, why doesn't it close breweries and saloons to save wheat for us and our Allies and grain to feed our stock, as it is almost impossible to get either?—F. W. B. in Farm Journal.

ECONOMY

As to Food Waste.

Over at Mt. Sterling last week a very prominent groceryman was harnessed up for selling a barrel of flour without selling an equal amount of other substitutes. He was let off by paying \$500 cash to the Red Cross Society and signing an affidavit that he would adhere strictly to food regulations in the future. It is right that he should be made come across for this violation.

During the same time in Lexington there were scores of stout robust men doing nothing but selling stuff made of good grain that would have substituted this barrel of flour five hundred times. This stuff is known as liquor. It sells at a high price, and in this United States it takes 1,500,000 people to keep it going. The use of it greatly incapacitates those persons from work, keeps them from producing more flour and veritally makes some of them very often worse than beasts.

The man who refuses to save food according to the requests of administration is disloyal, but far more disloyal is the man who knowingly and willfully worse than wastes ten times as much in debauchery, and it is lamentable that we have no order to stop this pitiful waste that leads to inefficiency and degeneration of soul and body, especially at this momentous crisis of the best nation upon the earth, whose President powerlessly so wills it, but has been stilted in this endeavor by this disloyal interest's influence in Congress which is yet the greatest national governing power on the earth.

Kentucky in the Lead.

The Third Bond sale was oversubscribed by about three hundred million dollars, and the managers are jubilant. Kentucky is in the lead of many other more propitious states. Likewise Louisville headed most, if not all, of the large cities.

SLADE.

Curt Barnett, of Indian Creek, was a caller here Sunday.

Garland, the infant son of Mr. and Mrs. R. B. [unclear] is [unclear].

Claude Spencer, of Alvin, Wis., is visiting friends and relatives here.

Several new cases of measles here and the whole community has been exposed.

Mrs. Martin Ford and Mrs. C. Conway visited Mrs. Denis Spencer at Nada Sunday.

Albert Welch, of Levee, and Jim Ewen, of Stanton, were business visitors here Saturday.

Dr. M. L. Knox was called to see Mrs. John Ballard Saturday. She is improving nicely.

Mr. and Mrs. Jasper McDaniel, of Lombard, visited the family of I. H. McDaniel Sunday.

Farmers are behind with their work here and it is almost impossible to get help on the farm.

Dr. I. H. Johnson was called here Monday to see the family of Mrs. Morison, who is suffering with measles.

We are having a very good Sunday School, but ought to have a fine school here if the parents would turn out as they should. Next Sunday is Sunday School day in Kentucky, and we hope the mountain people will turn out and not let the city schools beat us. Let us see if we can't fill the church house full like we use to have at Sunday School.

Three cheers for the Times. If all papers were as clean as it is their characters would not be blotted and disgraced with cigarette, whiskey and other coffin nails. No evil is destroying the young men and children of our country as the cigarettes. Partly through ignorance and partly through neglect of the parents. The child doesn't know he is filling his lungs full of a slow but sure poison and clogs the wheels of intellect until they can't perform their duty and laying the foundation for different diseases. This part is ignorance of the child. But the parents know that it is an open violation of the law for a youngster to be caught with cigarettes and paper and every grand jury knows this too, but let it go. Who is to blame? Is it any wonder the infant mortality is so great when a child is born of a father or mother who uses whisky and smokes cigarettes? Its constitution is already weakened until it can not stand the ravage of disease. The Bible teaches very plain that the body is the habitation or dwelling place of the soul and we are commanded to not defile this temple, yet it is the most abused dwelling place in the whole world. A person doesn't have to shoot a man down to be a murderer, but the one who knowingly murders his own body by using these evils, will be judged accordingly.

HARDWICK & COMPANY

Spring and Summer Goods.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadersville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At age, which is 65, my liver does not act so well as when young. A few years ago, my stomach was all out of it. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give it a thorough trial as I had heard it was highly recommended for me. I started taking it. I feel better now than I have for years."

doses of Black-Draught.

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, needs the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Black-Draught. It acts promptly, and in a natural way. If you will take it tomorrow. Price—One cent a dose.

gret to know that Mr. Ranson is going to leave Powell county. We feel that we will suffer a distinct loss. The Ranson family is one of the finest families that we have ever met and it has been a great pleasure to know them and to feel their influence in our community. Hodgenville will greatly gain by their going to that city.

Dave Baker was in Winchester Wednesday on business.

T. C. Conlee left Wednesday for Richmond where he will visit his sons, George and Louis.

Mrs. Kate Bohannon went to Winchester Wednesday on business. She leaves next Monday to assume her new position.

Dudley Caudill, and wife, left Wednesday for Richmond where he will attend the Superintendents conference to be held there.

Mrs. W. E. Raney, of Schoolesville, was in Stanton Tuesday to see about putting a monument over the grave of her mother.

Nolt Derickson slipped away from his parents this past week and left to join the army, going to Ft. Thomas it is thought. His mother left for Cincinnati Tuesday night to try and locate him.

Mrs. Callie Davis, of Lexington, was called home Sunday by the illness of her father. He is better now. She returned Wednesday but will come back to assist her mother till Mr. Norton is well.

We regret to learn that Mrs. Kate Bohannon will soon leave for Winchester where she has secured a fine position in the Clark County Bank. We will miss her in the bank and as a neighbor and citizen of our town. We wish her great success in her new place of business and give her a cordial invitation to come and see us as often as she can.

Uncle Jim Hohnan made us another welcome visit to our town Tuesday, coming down from Bowen. Things are looking fine for Uncle Jim and his fine wife in their latter days, as oil has been found on property owned by Mrs. Holman. We know of no one in Powell county, or in Kentucky, whom we would rather see have plenty of fine oil wells than Uncle Jim and his good wife.

Mr. Eastin, who has been sawing timber for Mr. Williams, is considering putting up a limestone crusher in our county in the near future. We hope that he will do so. It is badly needed, and we are sure that there will be a ready sale for all that he can crush. The soil of Powell county needs thousands and thousands of tons of this limestone to make our soil as productive as it should be.

Word was brought by J. W. McIntosh Tuesday night that Harlan King killed himself while he was there at Glenelg. He sent his wife out to get some greens for supper and while she was gone took down a shot gun and with a forked stick pulled the trigger. He had just returned a few days ago from the State Hospital at Lexington. He leaves a wife and several children in very hard circumstances.

Work on the new dormitory will begin this week. The material is arriving and being hauled to its proper place. Mr. Hamilton is here on the job. Soon the building will take shape, and it is hoped to have it ready by time school commences next fall. Better send your reservation now for it is going to be a fine building, and of course, all the students will want to room there, but we believe this will be only for the girls.

SPOUT SPRING

Shelt McKinney was in Winchester Saturday.

Mr. and Mrs. Geo. W. Pasley spent Sunday with Mr. and Mrs. Benny Barnett at Kimbrell.

Oscar Cooper, and wife, spent Saturday night and Sunday with Mr. and Mrs. Robt. McIntosh.

Shelt McKinney is remodeling his house and making repairs. Bayard C. Rogers is doing the work.

Oscar Barnett, whose illness was noted in this correspondence last week, while no worse, is thought to be improving.

The Saints will shortly begin the erection of a church on the road from this place to Hardwick's Creek on Asa Todd's place at the fork's of the road going to Little Creek.

The Rev. and Mrs. Geo. W. McIntosh was called at Haydenville, Ohio, last week to attend their son, Ed McIntosh, who is very sick. He was improved when they arrived there. Charlie McIntosh, another son, lives also at Haydenville.

We would think that some of the Hohenzollern family would manage to get at least slightly wounded, or something just as a guarantee of good faith.

Classified Advertisements.
